WORK EXPERIENCE

Android Software Engineer Daria Hamrah

2021 - Present

Tehran/Iran

Achievements/Tasks

- Contributed to multiple AOSP-based Android system applications, including Dialer, Messaging, File Manager, and Recorder, supporting feature development and platform-level integration.
- Developed Android applications related to blockchain-driven workflows and system-level operations, including update and installation mechanisms.
- Implemented on-device AI model workflows for mobile and embedded environments using LLM/MLC-based tooling, with a focus on deployment constraints and runtime performance.
- Built e-commerce applications designed to improve user engagement, simplify transaction flows, and reduce friction in the purchase experience.

Android Developer Zistpak Arman Shahr

2020 - 2021

Qom/Iran

Achievements/Tasks

- Developed "Zipak," a waste recycling application for the Qom Municipality.
- Built client, driver, and supervisor modules using Java and MVVM architecture.
- Designed complex UIs following Material Design standards and implemented server communication with Retrofit.

Contact: <https://cafebazaar.ir/app/app.zipak.client>

Android Developer Tada Institute (Atrak)

2019 - 2020

Tehran/Iran

Achievements/Tasks

- Worked on international financial and banking projects like POS terminal development with certain SDK.
- Contributed to the development of the educational "Bache" app for RAHA private school.

SKILLS

Java Kotlin Python Android Components

Android OS Android SDK NDK AOSP

On-Device AI Deployment TensorFlow Lite

Coroutines Room MVVM Hilt Retrofit

REST API OOP SOLID Linux Git

Agile Methodology

EDUCATION

Artificial Intelligence

Islamic Azad University (MSc)

2021 - 2024

Tehran/Iran

Courses

- Thesis: Brain tumor detection and automatic report generation from MRI images using transformers combining image processing and NLP techniques.
- Recent Project: Tumor classification and segmentation from MRI images using the U-Net model.

Computer Systems Architecture

Qom University Of Technology (B.Eng)

2014 - 2019

Qom/Iran

VOLUNTARY

Head of IEEE student branch (2017 - 2018)

Qom University of Technology

LANGUAGES

English

Full Professional Proficiency

INTERESTS

Mobile security
